Pacific Halibut 14k Gold Charm by artist Mark Dahn. Capturing the finest detail this meticulously crafted 14k gold charm will enhance any collection. These charms are the result of a careful design process that begins with extensive research on the animal, its habits and habitat. The artist then writes a summary paper detailing the important and interesting features of the animal. Then the work begins in earnest with detailed drawings, which are painstakingly sculpted in wax, molded and then cast using the 4000 year old lost wax process. This piece measures 1" by 3/4"
