

Large Size Humidor

\$400.00

Item URL: http://woodgalleryonline.com/office14_1.php

Artist: John Salene

These functional humidors are beautifully handcrafted and each one is made using lock-miter corner joinery to provide the most sturdy possible construction with raised top and bottom panels to allow for expansion of the wood. They are lined with the very finest available imported Spanish cedar and are finished using only hand rubbed prelude oil, which allows the hardwood to age naturally, thus enhancing its character and beauty. The lid has an almost airtight fit when closed.

LARGE SIZE HUMIDOR (UP TO 75 CIGARS) includes a 3" dia. nonparial humidifier which is rated to maintain ideal humidity for up to 75 cigars and an analog hygrometer with a solid brass case and mineral glass lens.

Outside dimesions are 5 1/4" H X 9 1/4" D X 13 1/2" W
